G.R. [WILL BE ADDED BY SENATE PRESIDENT]
A Resolution Alter the Frequency of Senate Meetings

1. **Purpose:** Senate meetings are a large time investment that limits further participation within GSG activities and leadership. Furthermore, a significant portion of senate meetings is not time sensitive. Therefore, it would be more efficient to meet less often, allowing senators time to serve on GSG committees.

2. **Whereas,** Senate meets bi-weekly as an opportunity to speak to Clemson University guests, share committee updates, and foster interaction between the legislative and executive branch;

3. **Whereas,** Senate meetings can feel inefficient or less than necessary due to the lack of legislation, speakers, or substantive updates;

4. **Whereas,** many senators would like to be more involved in GSG activities, committees, and leadership positions but lack the ability to invest time due to other demands.

5. **Therefore, Be it Resolved** by the Clemson Graduate Student Senate assembled in regular session,

6. **That** beginning August 2019, senate will meet monthly instead of bi-weekly;

7. **That** senators will use off weeks (e.g. when senate would meet on a bi-weekly schedule) to participate in a GSG committee, task force, or other useful contribution to the Graduate Student Government;

8. **That** failure to meaningfully participate within GSG outside of monthly senate meetings will result in removal from office, in accordance with GSG Rules of Order section 6.4
Bryce Conti, Graduate Student President

Date

Cody Woods, President of the Senate
